BTSF Comments and remarks

…

1. Does the animal feel pain? Yes the body positioning – arched back, it holds the hind leg out
2. Bleeding could have happened during the transport
3. Ask about the farming system: outside or inside, how frequent the animals are checked
4. Why was the issue not seen at the loading?
5. The farmer may want to stop suffering by sending the animal to slaughter
6. Economic gain/easiest solution
7.

BTSF Solutions

…

1. The animal could have been separated on the transport
2. The planning of the journey could be better
3. Get the animal killed/slaughtered as soon as possible
